

2016 Annual Report

Mission

Our mission is distinct in that we are the only veteran support organization that supports any veteran and/or family member in our region with no exclusions, and that we case manage through what we call our Veteran Quality of Life Cycle©.

Our mission provides care and support around multiple needs, such as reintegration; healthcare; employment; education; family and caregiver support; legal aid; housing; transportation; community engagement; and local fitness, arts, and recreation resources.

Veteran Quality of Life Cycle©

One point of entry for local services, resources,
personal support, follow-up and care.

Benchmarks

Since our start in 2015 we comprehensively supported and cared for over 60 Veterans and/or their families. Some of our accomplishments include:

- Helping the daughter of a WWII Veteran who needed services and home care for their dad taken care.
- A widowed homeless spouse of a Vietnam Veteran could not find help elsewhere and we were able to get her housed, employed and taken care of.
- A young veteran with many medical needs who was unsure of the resources and how to access them was carefully walked through and coordinated with multiple providers who were able to give her the needed services.

We aim to triple that support in 2017 by increasing our outreach initiatives and community education events. You are always welcome to come to our quarterly meetings and events!
